ABOUT US

Stock Broking In A Better Way.

Who are we

LKP Securities Limited, located in Mumbai, is a full-service broker serving retail as well as institutional clients throughout India. With a full array of products and services including stocks, options, bonds, mutual funds, and managed accounts, we are well-positioned to help investors find the right mix of products to help meet their financial needs. Our highly dedicated professionals focus on each investor's unique risk tolerance, liquidity needs, time horizon, and financial goals to develop a plan best suited to help reach those goals.

TRUST

INVEST

GROW

Our Vision Statement

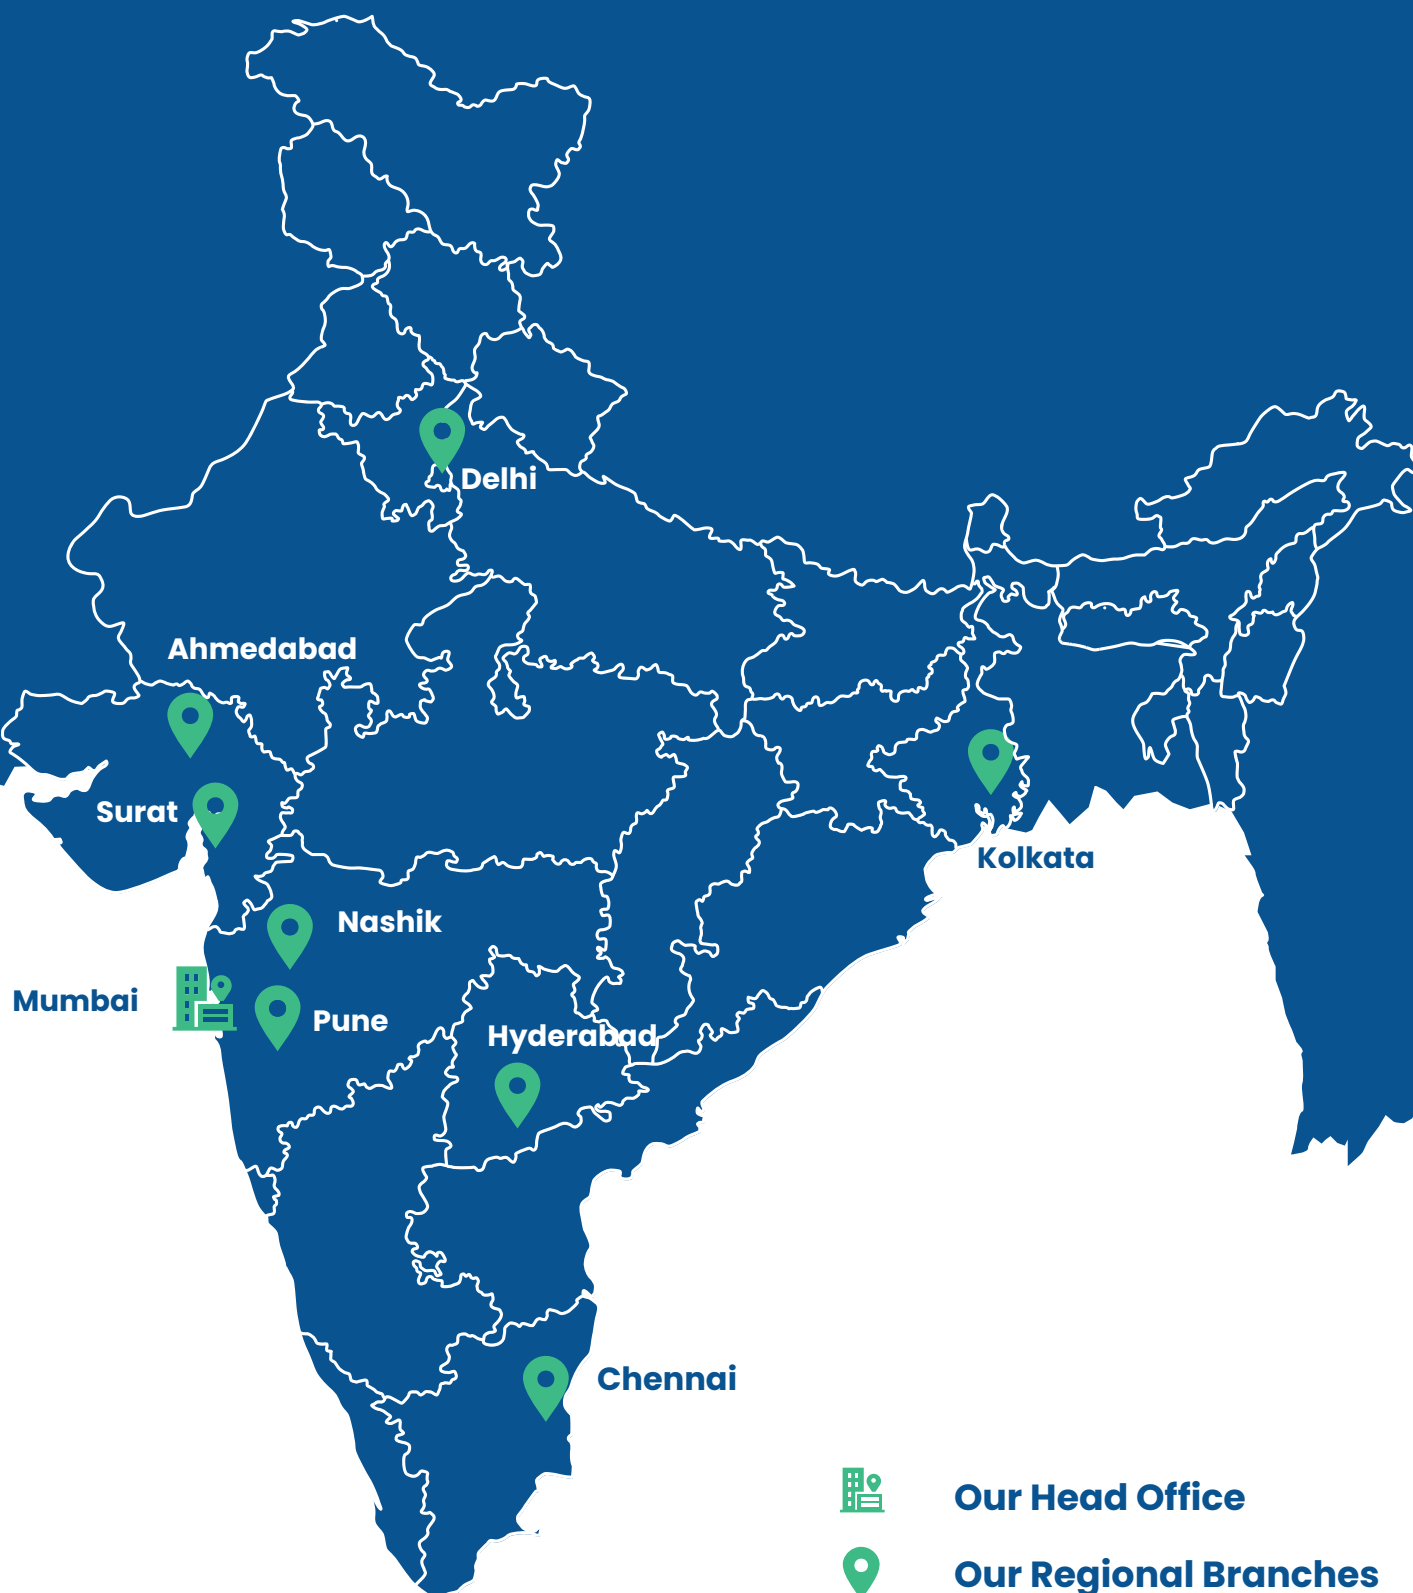

“Be a trusted investment partner for our clients in their investment journey and guide them to grow”

Our Mission

Consistently serve our clients with the highest level of professionalism and expertise and provide our clients with innovative and cost effective solutions designed to help them achieve their goals and objectives.

OUR PRESENCE

Empowering Investment Across India.

Our Head Office

Our Regional Branches

2000+

Registered APs

More Than Just Stock Broking.

Equity

LKP makes investing in stocks faster and easier by enabling access to fintech tools that gives access to advanced charts, market data, high quality research or interactive platform – you get it all at one place.

Derivatives

Derivatives Trading give you an alternate option to boost your returns from capital market, by providing leverage by way of Derivative Products like Futures and Options. Derivative instruments are available for shares, indices, currencies as well as commodities.

Currency Derivatives

The Foreign Exchange Market (Forex) is one of the world's largest, most liquid and most dynamic financial markets. It gives traders a platform to speculate on the value of one currency against another. Currency trading is an attractive option for investors looking to diversify their portfolios while capitalizing on global trends.

Commodity Derivatives

Historically commodities move in opposite directions to stocks thereby providing an excellent opportunity to diversify. A commodity market is a marketplace where several commodities from different sectors such as agriculture, metal, energy, etc. are traded by investors on a recognised commodity exchange.

NCDs, Bonds, Corporate FDs

The fixed income instruments provide a safety to the portfolio and produce stable returns than stocks.

Mutual Funds

Best suited for the ones who are too busy to take our time from their daily routine and invest their funds into capital market but who want to invest in Indian equities, but do not have sufficient time and skills to choose winning sectors. Another advantage of investing in mutual funds is that it provides the necessary diversification to the portfolio. The money is invested across a wide variety of assets like stocks, bonds, gold, etc. to earn returns.

IPO

Excited about a company getting listed on the exchange and want to participate in it's growth story ? Invest in IPOs online with your trading and demat account in just few minutes through our platform.

ETFs

Exchange Traded Funds (ETFs) are essentially mutual fund schemes or index funds that are listed and traded on an exchange just like stocks. ETFs can be bought and sold throughout the trading day. Buying/Selling of ETFs is as simple as buying/selling of any other stock on the exchange allowing investors to take advantage of intra-day price movements. Thus with ETFs, one can benefit both from the flexibility of a stock as well as diversification of an open ended mutual fund scheme.

Money Invested Right, Makes The Future Bright.

OUR PRODUCTS

One Step Ahead Of The Market.

Daily Market Outlook Report

Daily Market Outlook Report discusses the market view on major indices, direction of the market based on option chain and trending index and stocks for intraday.

Spade Pick Report

Spade Pick Report is our weekly momentum pick released at the start of the week on every Monday. Spade pick is a swing trade opportunity to capture the move in a trending stock in a short period of time.

SPIP (Seven Picks Investment Plan) is unique investment plan for superior performance in a systematic way. It comprises of monthly report with 7 stocks with a Technical & Fundamental approach.

Experience The Evolution Of Your Portfolio.

OUR PARTNER PRODUCTS

Products That Have Your Back.

Insurance

Secure yourself for the Unforeseen Events. Insurance is a way to manage your risk. When you buy insurance, you purchase protection against unexpected financial losses.

Peer To Peer Lending

Peer to Peer lending provides an opportunity to the retail lenders to maximise their returns while ensuring the safety of their capital. Liquiloans is a Peer to Peer Lending platform. The company uses technology to match borrowers and lenders and in the process eliminates the margin which is charged by traditional banks and NBFCs, thus, making borrowing cheaper and investing a more lucrative opportunity as compared to traditional investment avenues.

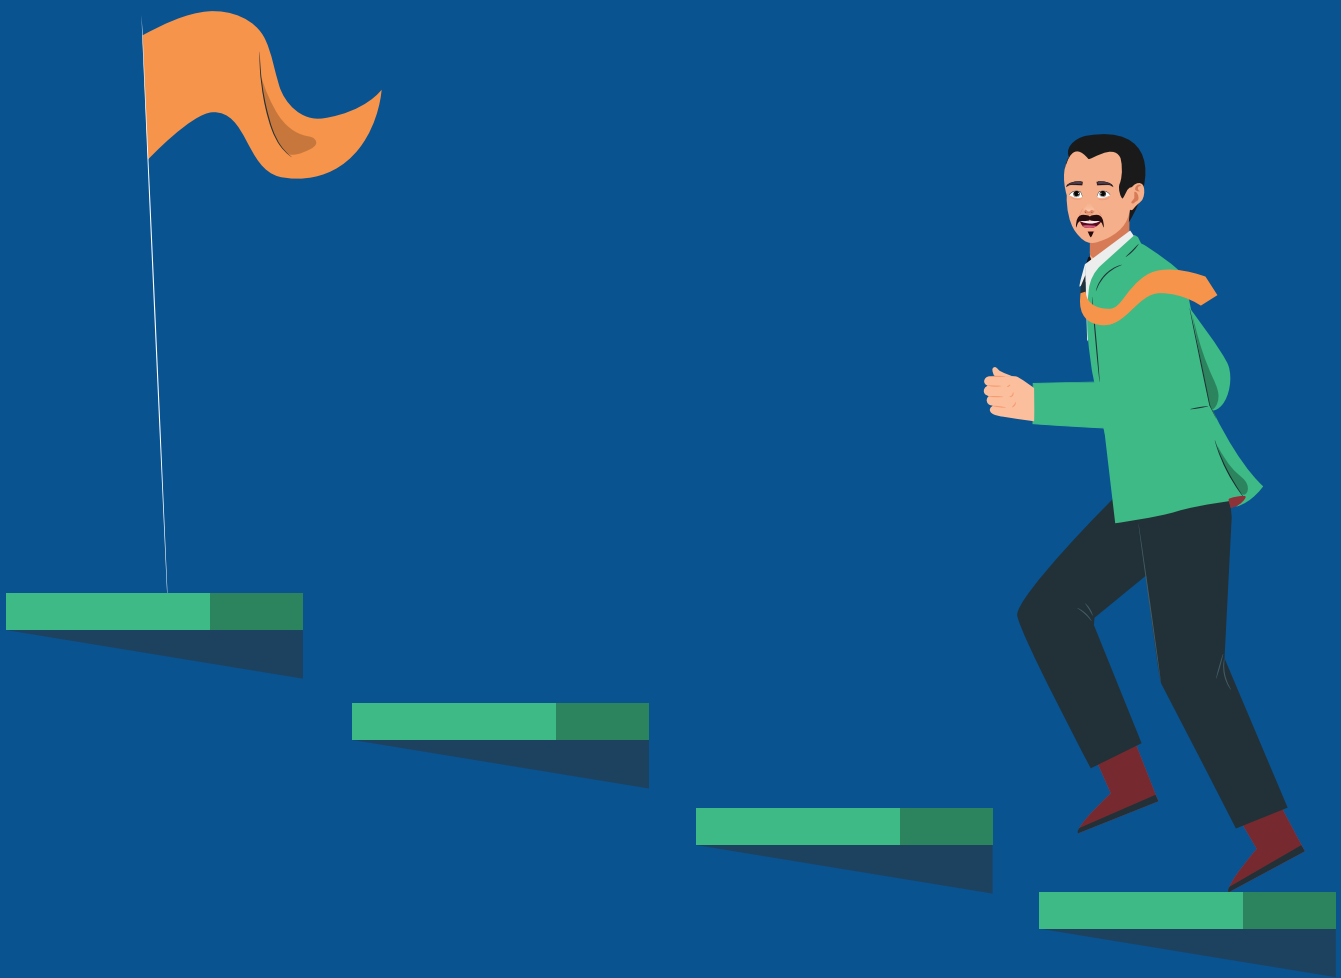

PMS

LKP Securities has joined hands with some well know players in the Industry who offer you professional investment management aimed to work around your customized investment strategy.

Products That Creates A Safe Ladder Towards Your Financial Success.
